Experience escapes in places like never before!
It is very important to us that our virtual reality experiences are social and not individual or isolated. When you enjoy VR in the same physical space you get a richer more satisfying social experience. Our VR experiences encourage social connections via the technology itself as well as through the types of activities you participate in within the game.

XCAPE OLYMIPCS

Your country's flag is raised high in the air and your national anthem starts to play in the background as you step up to that first place spot on the podium of our 'The Xcape Olympic Games' event.

With fast-paced team-building games, this is an event that takes inspiration from the Olympics. This fun-packed day allows your team to experience a little taster of what it's like to be an Olympian. Sort of.

You will represent your countries in a series of head to head target and team-based sports. Your marksmanship will be tested in archery, Football Dart, and Sumo. Human table football and inflatable volleyball will then get you playing as a team.

Compete in our decathlon track & field zones, with a combination of serious and fun events. Challenge yourself with the javelin and discus, and have a go at events not quite ratified by the International Olympic Committee such as the egg & spoon race and skipping.....

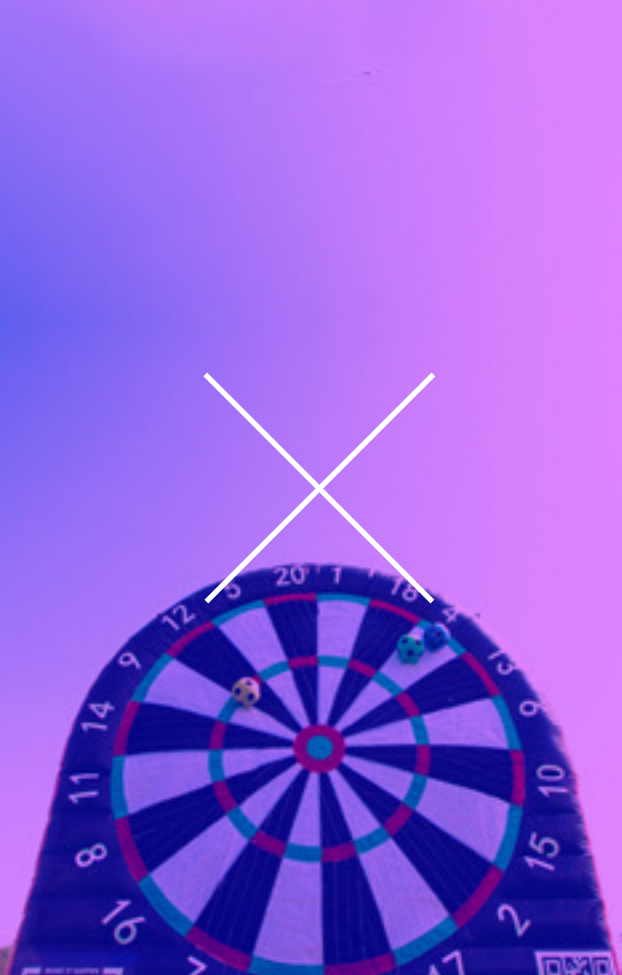

120 :180 minutes of fun

Perfect fit for 50 :200+ players

2 Hours = 30 R.O / Per Person

3 Hours = 36 R.O / Per Person

Darts football

The balls are very light, that's why everybody can try our darts football.

Your goal is to kick the bowl as higher as you can and reach the point on the darts.

Sumo

Sports activity for real SUMO fighters in big suits. You have limited minutes to pull your opponent out of the circle.

Team pants

Team building physical challenge. You need to run as fast as you can with your partners, but you will be in the same trousers.

Archery

Archery is the art, sport, practice, or skill of using a bow to shoot arrows. Go back in time and feel yourself a real hunter.

Rocket Lunch

Each team will be briefed on their mission and supplied with all the tools and materials needed to create their very own rockets.

Cake Design

Each team is supplied with its own purpose-built baking station to make his own cake design.

Locks & Boxs

A super mind game challenge.

limbo

going under the stick without touching the stick, bending their knees and leaning as far back as necessary.
